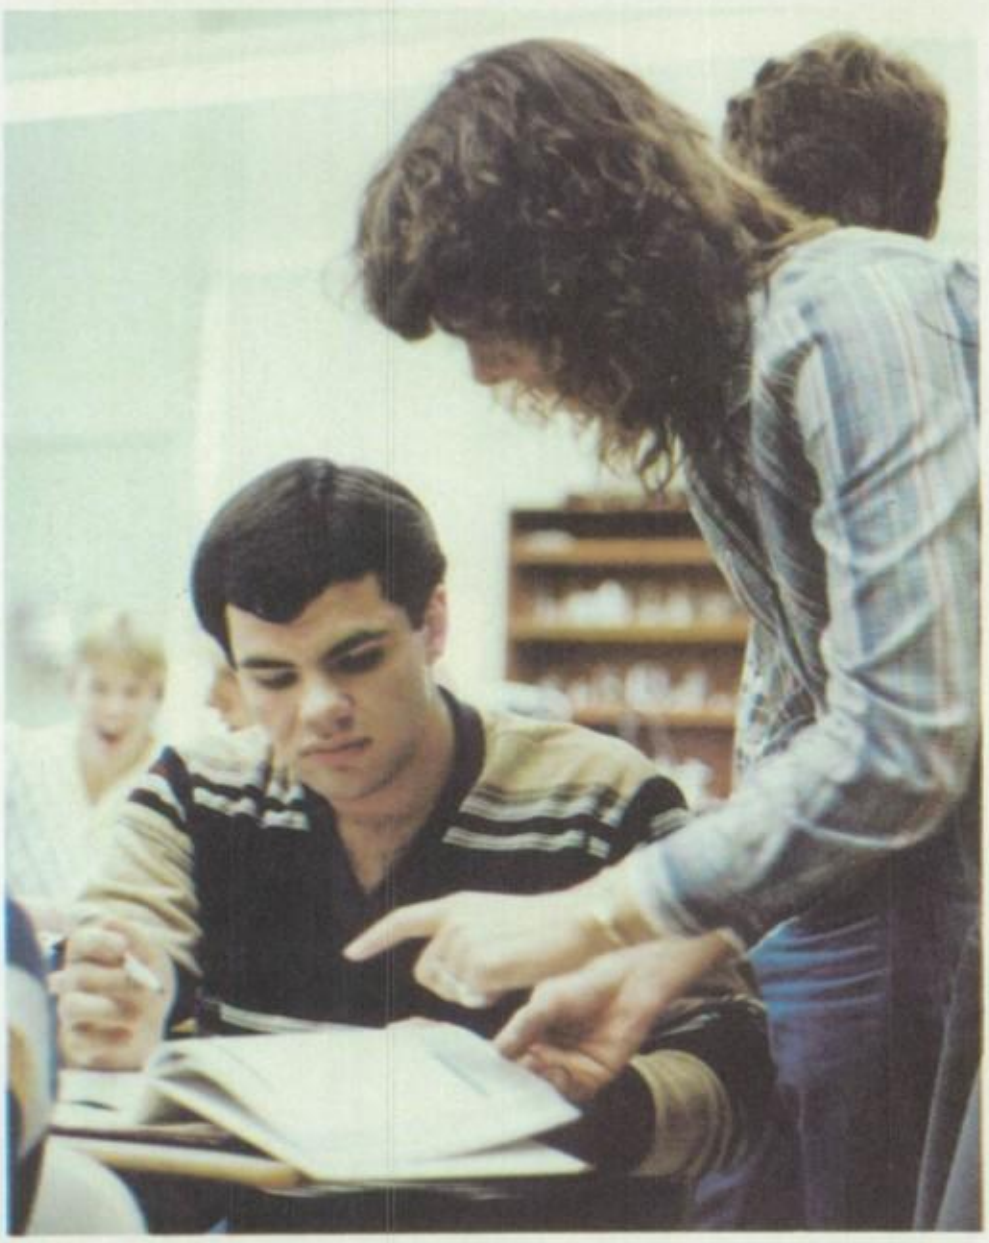
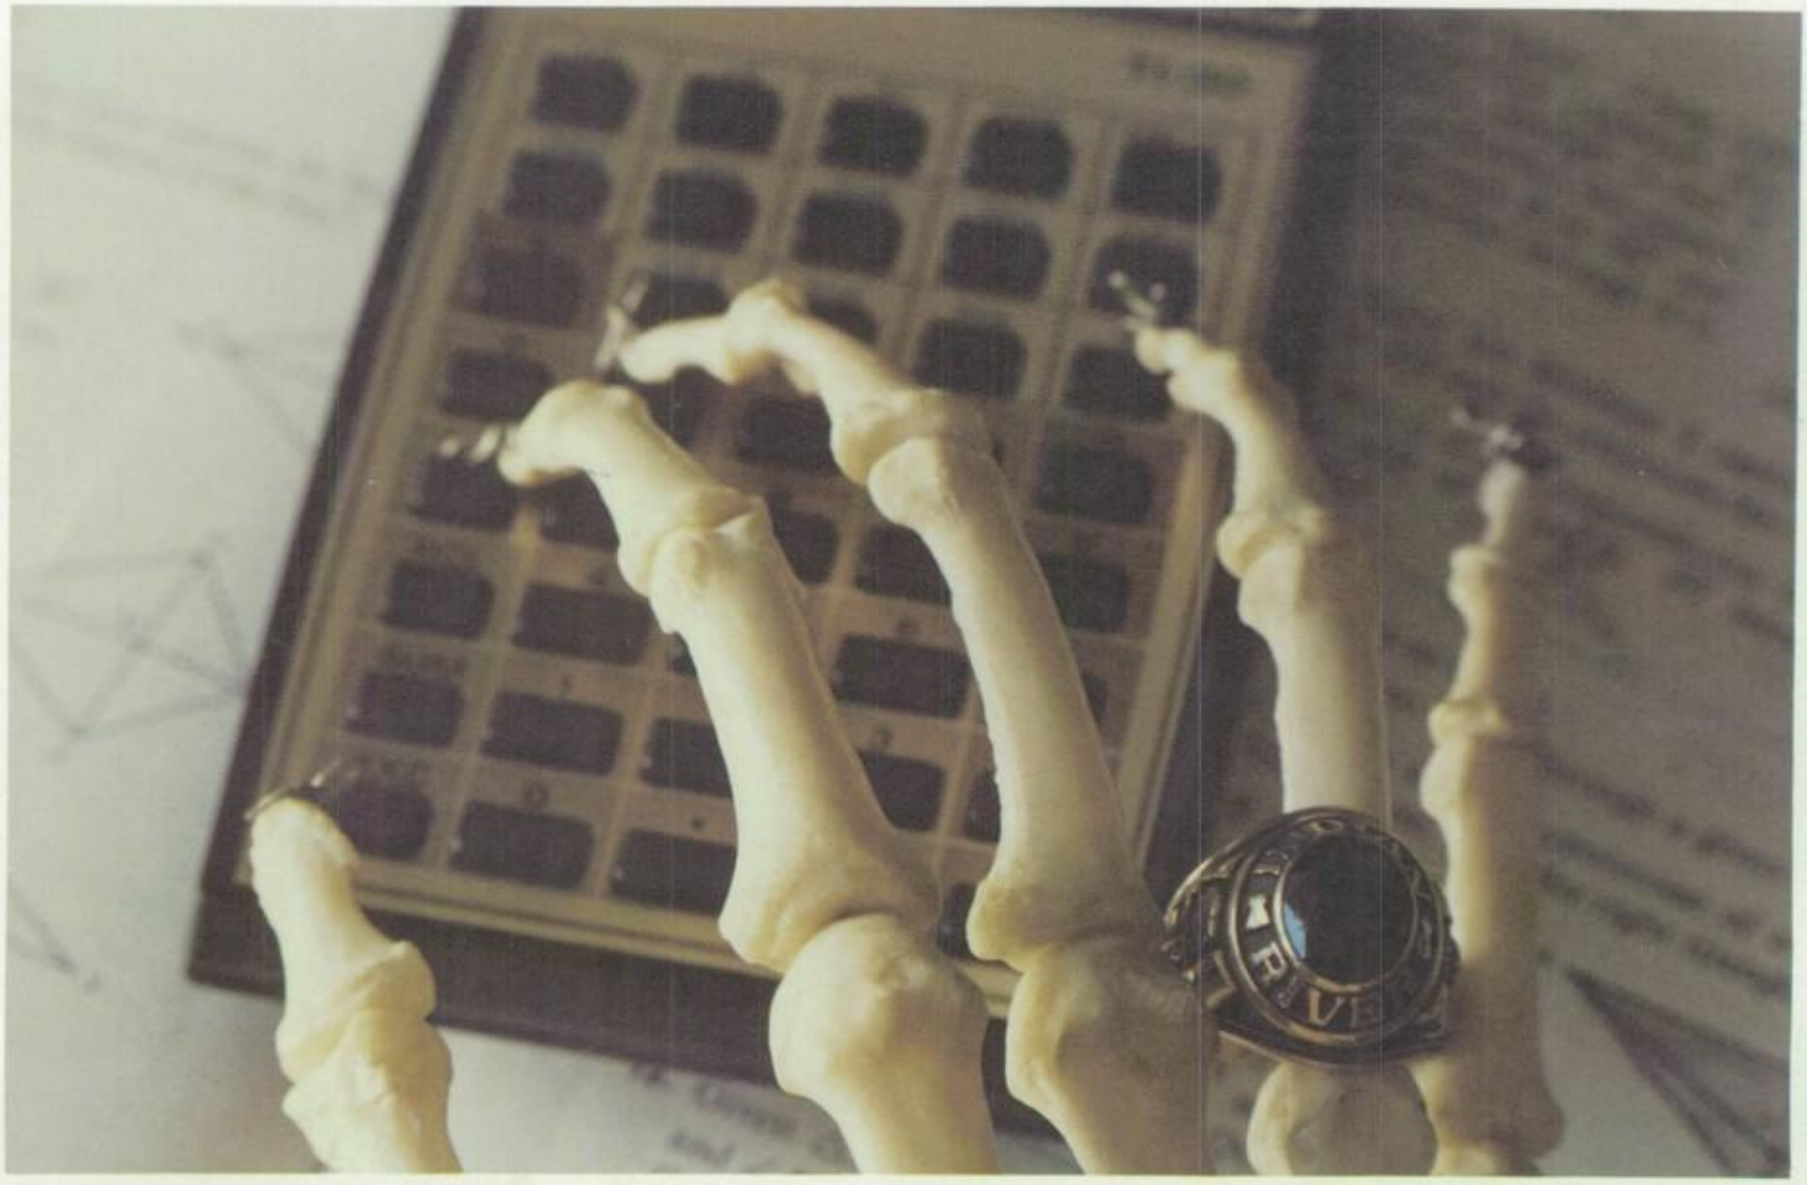
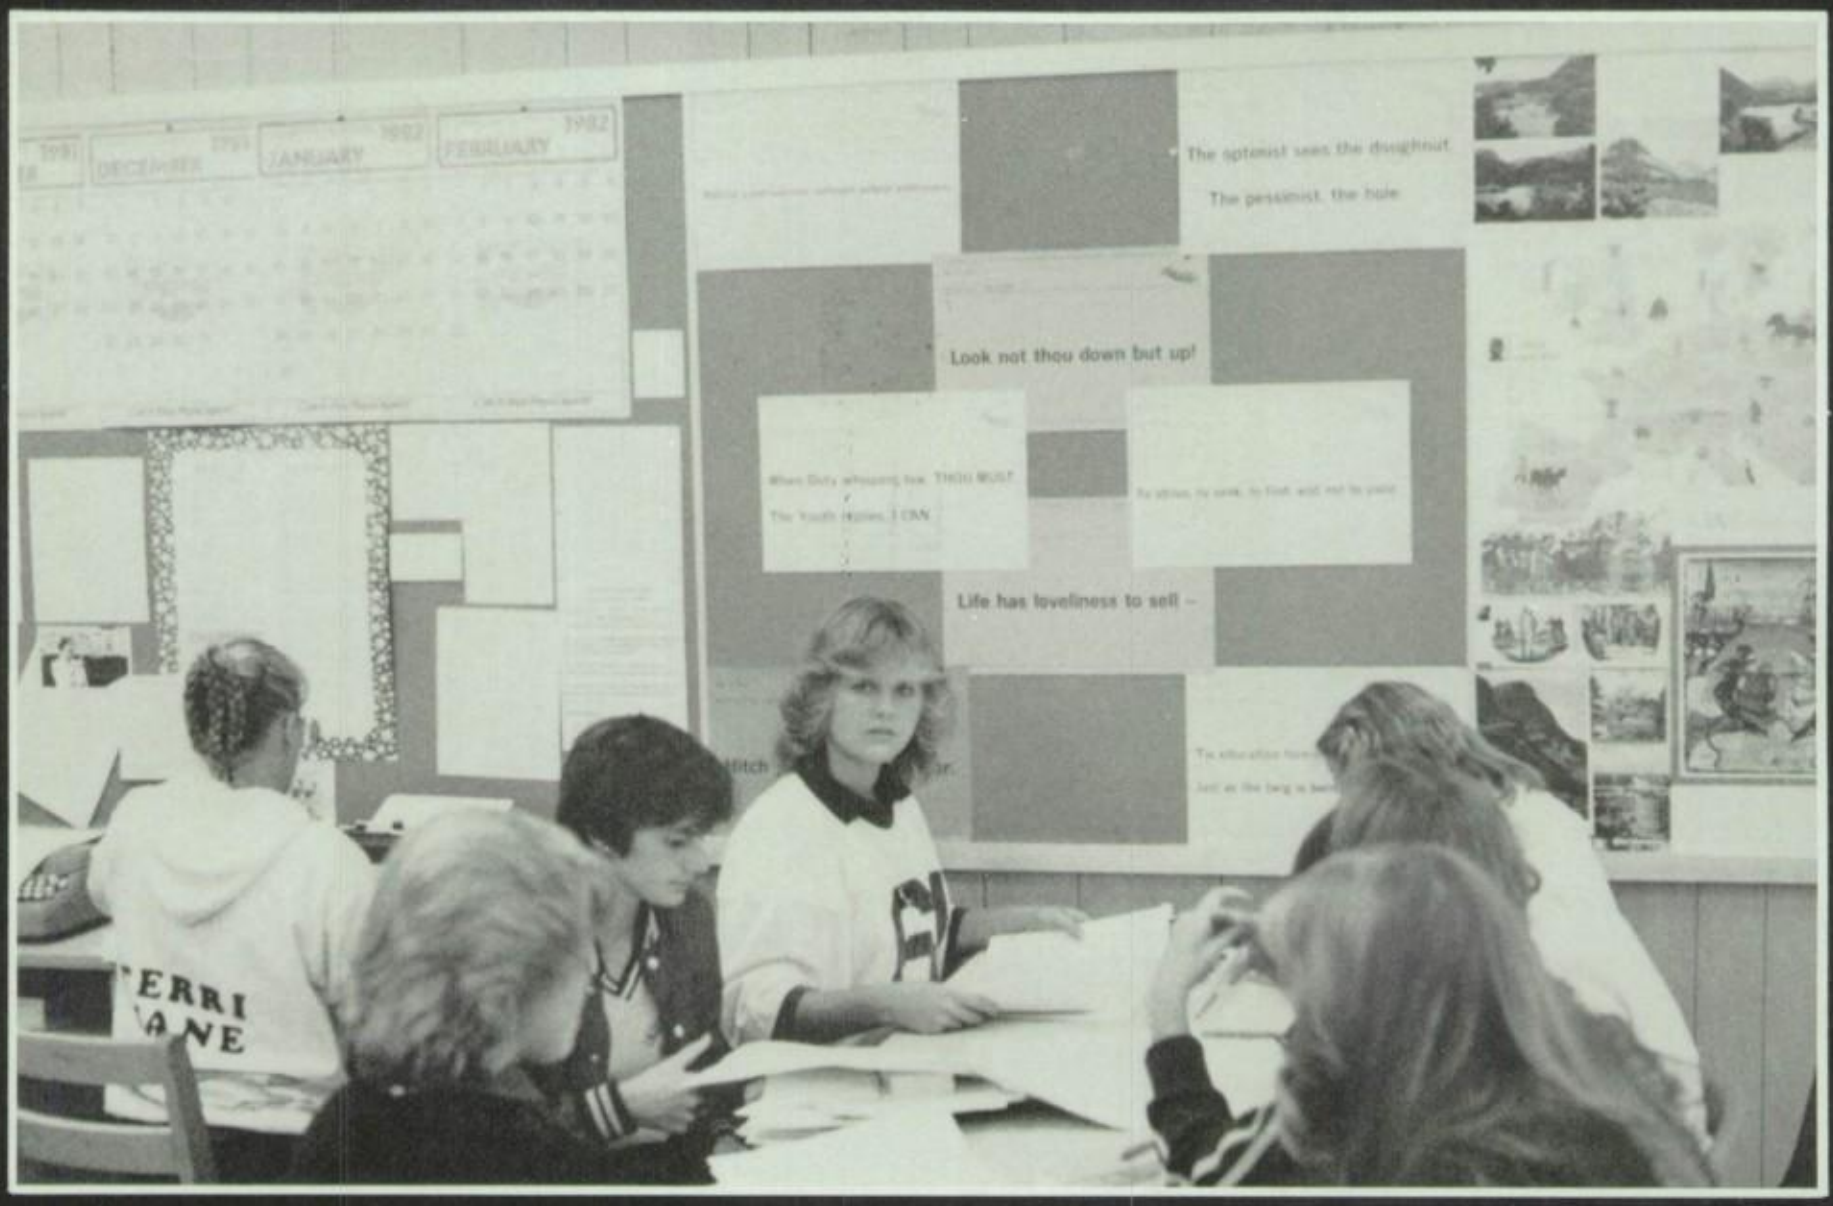
School Days
Chuck Berry

Up in the morning and out to school
The teacher is teaching the golden rule . . .





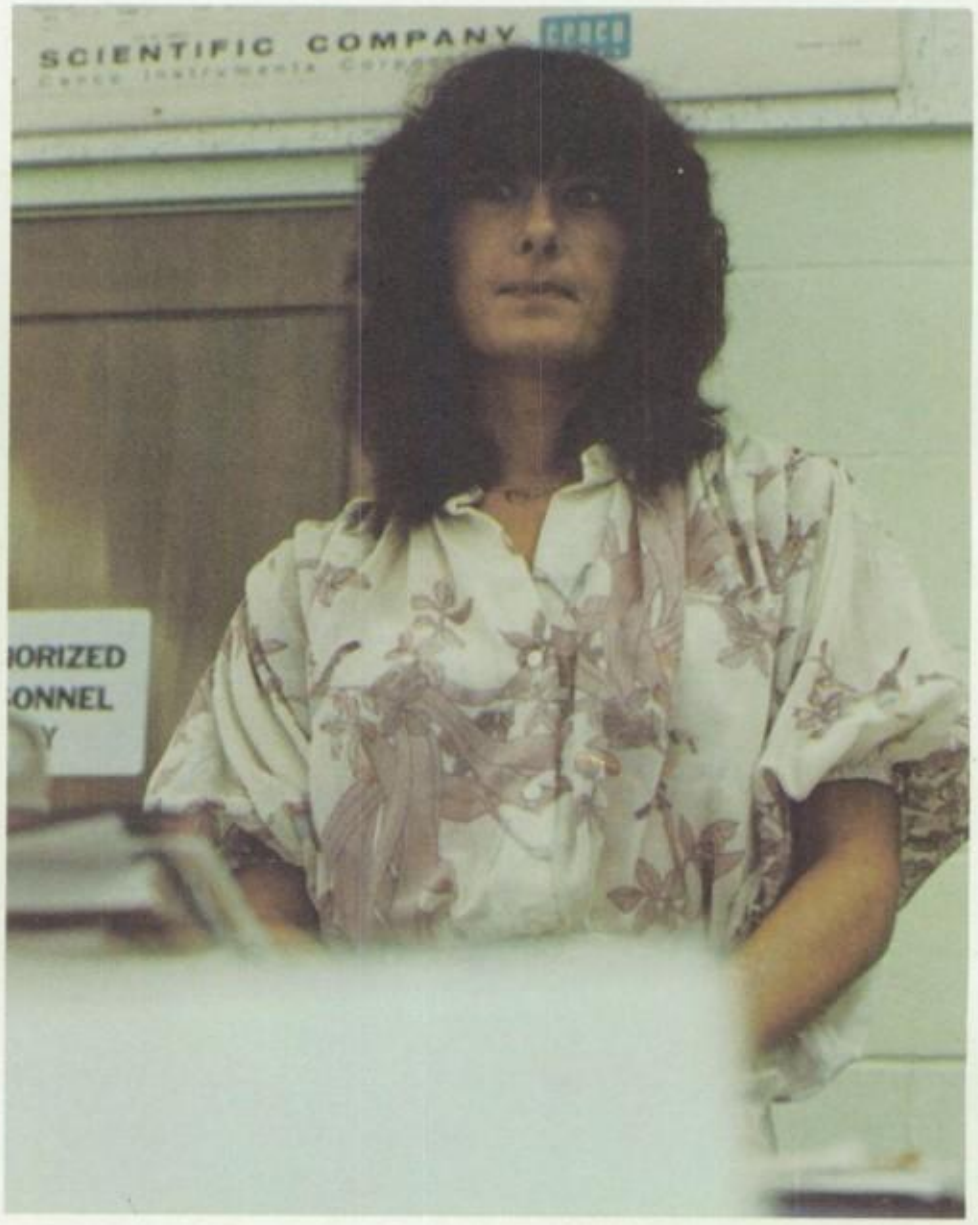
American history and practical maths
Study'em hard and hoping to pass . . .

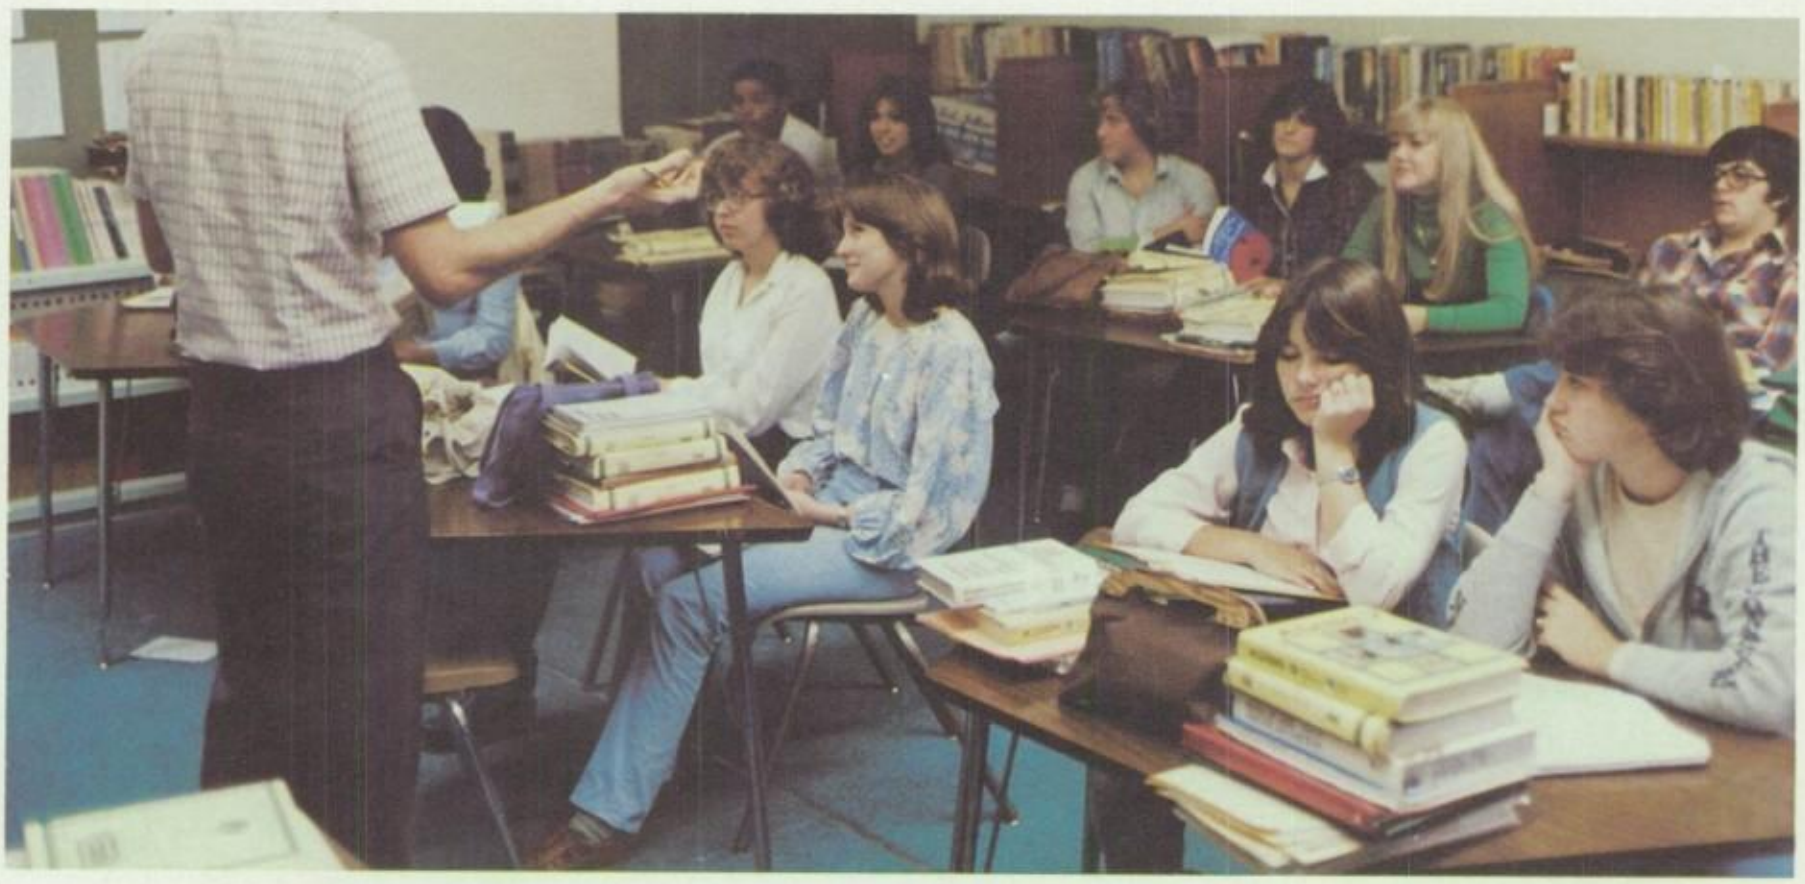


Working your fingers right down to the bone
And the guy behind you won't leave you alone . . .

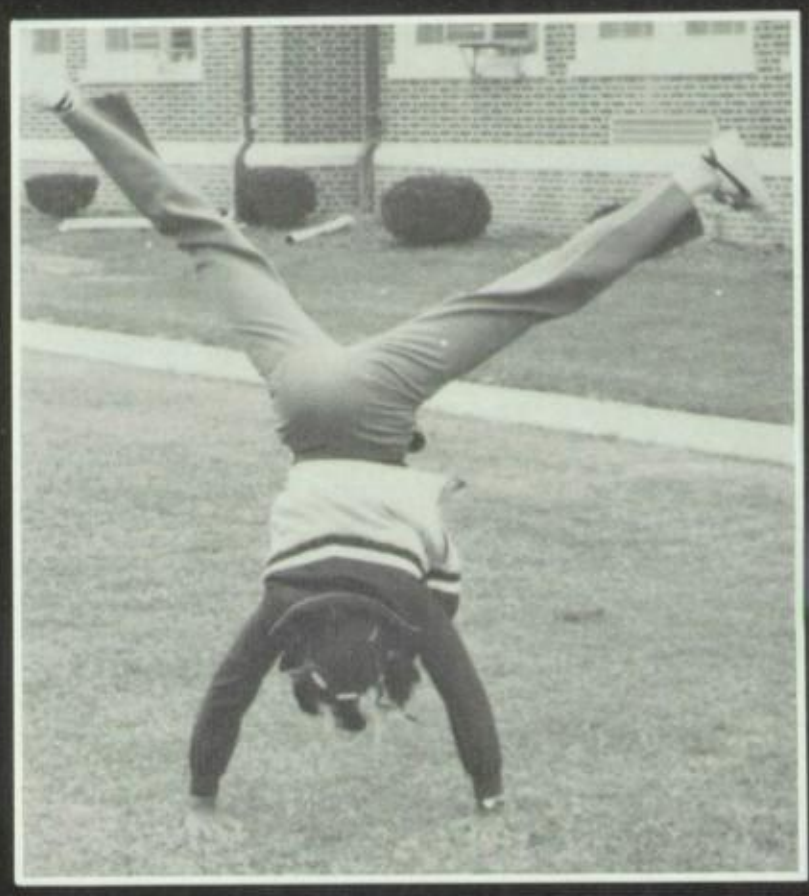
Ring ring goes the bell
The cook in the lunch room is ready to sell . . .

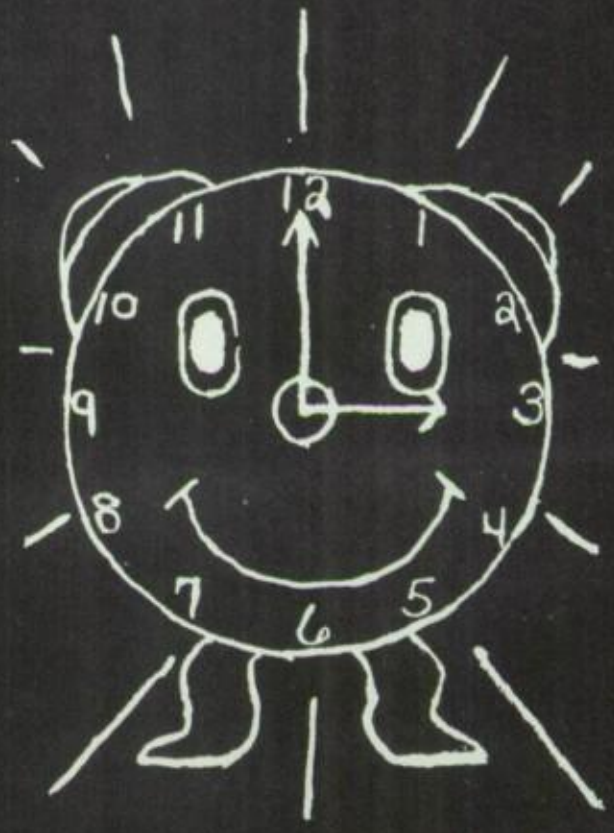
You're lucky if you can find a seat
You're fortunate if you have time to eat . . .





Back in the classroom open your books
Gee but the teacher don't know how mean she looks . . .





Soon as 3 o'clock rolls aroun'
You finally lay your burden down . . .

Close up your books and get out of your seat
Down the hall and into the street . . .

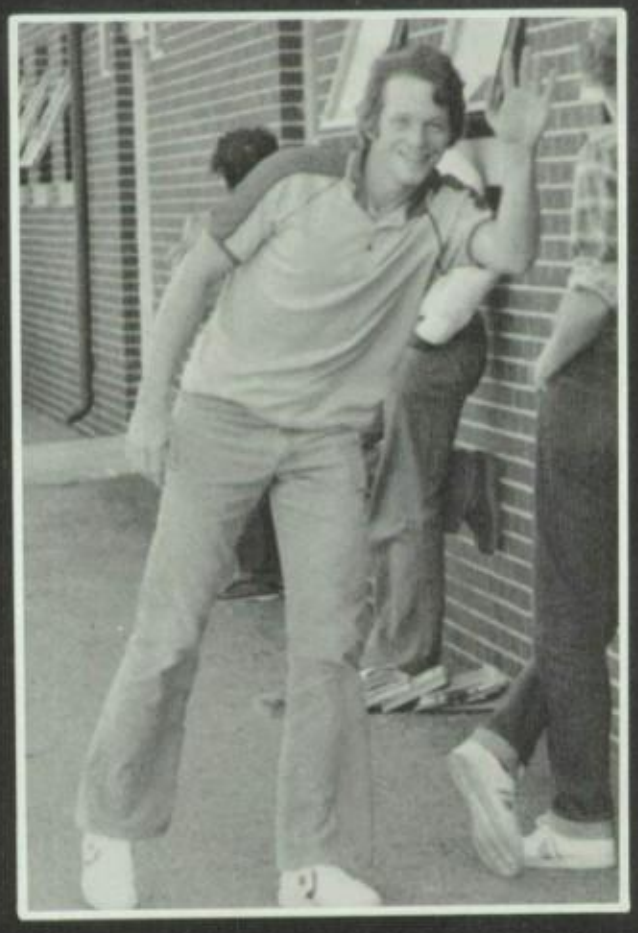
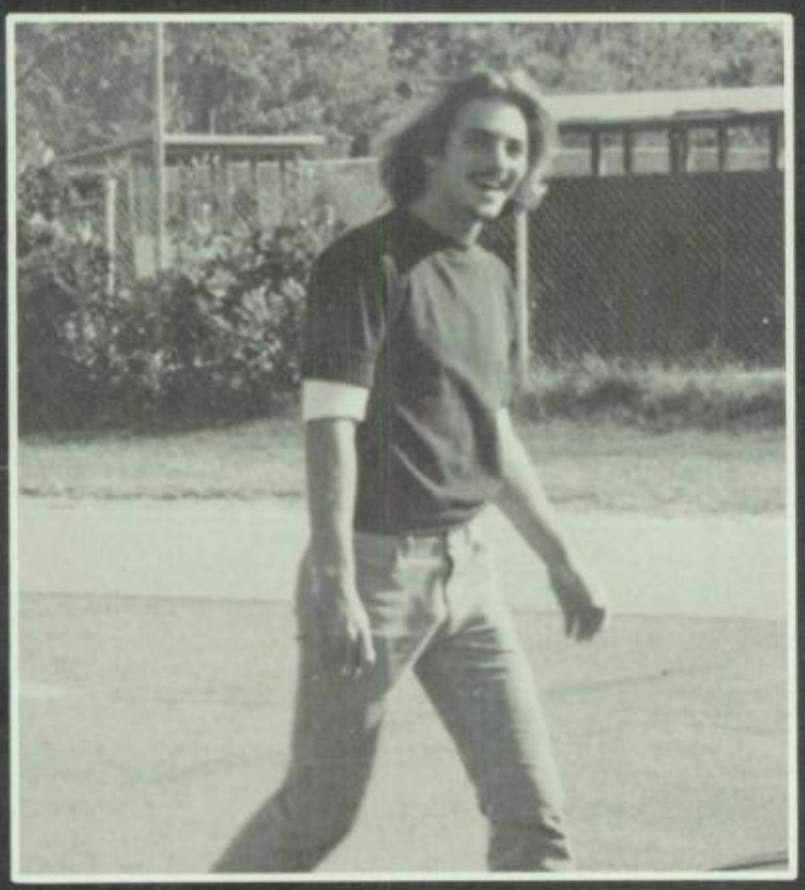
INDIAN





Howard L. Heim

Howard L. Heim has been a guidance counselor at Indian River High School since 1971. During this time he has worked diligently with the entire student body to help them select the classes that will most benefit them in the future.

Mr. Heim's background has been both interesting and varied. After attending high school and college in his native New York State, he served as a director of the United States Army Band in Panama. His first position with the Indian River School District was that of music director. Then, in 1971, after becoming a certified guidance counselor, he began his service at Indian River High School.

As a guidance counselor, Mr. Heim has been very active. In his office, he handles all Vo-Tech student schedules and programs, a specific work-study program, and correspondence courses. He is also in charge of programs for students interested in the military, and works with military recruiters to plan visits to the school. In addition, he coordinates both the ASVB and the PSAT test programs at Indian River High School, as well as serving as an advisor to the Honor Society. His counseling skills carry over into the community through his involvement in the Adult Education Program.

It is because of his sincere devotion to helping others and his long-standing involvement with the student body that the 1982 **Chieftain** staff would like to dedicate this yearbook to Mr. Howard L. Heim. All of us wish him great success and happiness in his future endeavors.

YEARBOOK

To the Class of 1982:

Over the past six years I have grown to know each of you individually. Though the Class of 1982 has great diversity, individually you have pulled together to strengthen Indian River High and your class. I am very pleased to be a part of your reaching this milestone. Together, we have provided you with a sound beginning. The challenge to you now is individual. Each of you must make a place in life and society. I wish you each the success and happiness expressed in the old Irish blessing:

"May the road rise up to meet you,
May the wind be always at your back,
May the sun shine warm upon your face,
And the rains fall soft upon your field,
and until we meet again,
May God hold you in the palm of his hand."

Everett C. Toomey

Dear Seniors:

You have now completed your high school education. Congratulations! I have appreciated the opportunity to get to know you during these last two years. I wish you success and happiness in all your future endeavors.

I would like to leave you with this quote from Thoreau's Walden: "Why should we be in such desperate haste to succeed and in such desperate enterprises? If a man does not keep pace with his companions, perhaps it is because he hears a different drummer. Let him step to the music he hears, however, measured or far away."

Sincerely,

Margaret E. Peck

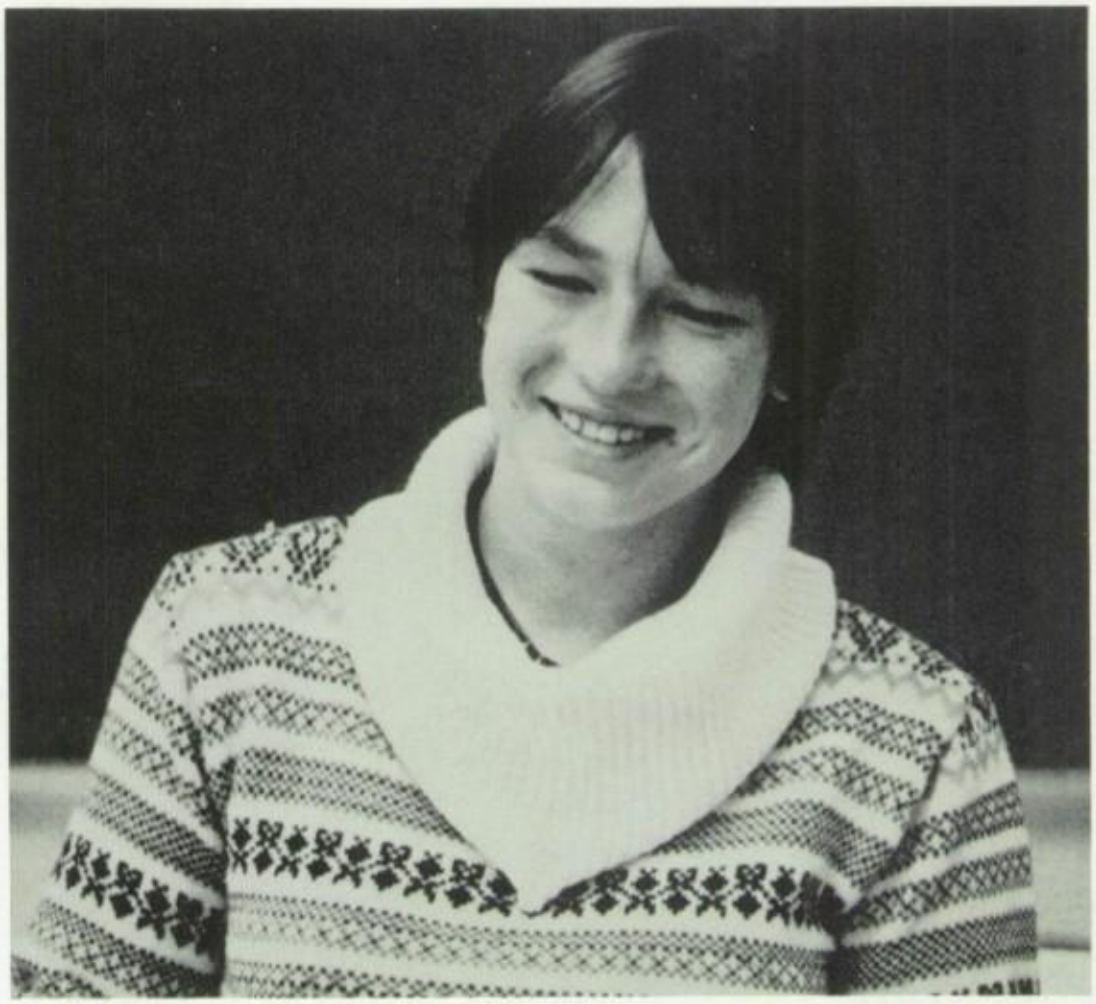
FOREIGN EXCHANGE STUDENT

Daniela Csuss



My name is Daniela Csuss. I am an AFS-Exchange Student from Vienna, Austria. Vienna is a large city of over a million people and is located in east Austria near Hungary.

I have found there are many differences between my life in Austria and my life in America. For one thing, the Austrian people are not as religious as Americans. Also, Vienna is a large urban area, as compared with Sussex County, which is very rural. The schools, too, are very different. In Vienna we don't stay in school the whole day, but we do have to attend classes on Saturday. The teacher changes classes rather than the students, and we have larger classes (sometimes as many as 48) and use more books than here, at IR. The grading system differs, also, and we are not on a credit system. In spite of the differences, however, I have enjoyed my year at IR. I have spent my mornings at Vo-Tech, studying Data Processing, and my afternoons at IR in Yearbook and American History.

I wish to thank you all for the help you have given me this year. My special thanks go to the Donaway family for caring and showing me a good time during my stay. I hope I can come back to visit Indian River High School and the Donaway Family again soon.

Sincerely yours,

Dani

A year in time
Goes so fast
Those high school days
They never last
The fun we had
The sad times too
All that's left
Are the memories for you.
